CRAB GRASS KILLER

CRAB-NOT

"Selective"

CRABGRASS AND CHICKWEED KILLER

CRAB-NOT containing "POTASSIUM CYANATE," a new NON-POISONOUS Weed Killer which readily controls crabgrass and chickweed in lawns with little or no damage to desirable turf grasses.

CRAB-NOT comes in "powder" form and is completely soluble in water. It will not sterilize the soil, but is of beneficial value, for it breaks down into FERTILIZING ELEMENTS on contact with the soil.

The Standard Formula is non-volatile and can in no way affect adjacent untreated vegetation.

CRAB-NOT readily combines with "2-4-D" for control of broadleaf weeds and is available in packaged form "with" or "without" 2-4-D.
